Who was Isaac de l'Étoile ?

- As a theologian and a medieval poet, he is worldwide known – of course he is, open an encyclopaedia and you will see ... - Isaac de l'Étoile was edited in the prestigious collection "Sources Chrétiennes".
- Isaac was born in England at the beginning of the 12th century. He was a foreigner who settled at l'Étoile Abbey next to Archigny after brilliant studies in Chartres. His studies turned him into both a man open to other cultures and a man deeply rooted in Poitou.

- As a brilliant theologian and thinker, he knew how to defend his ideas and friends against the then greatest political power. He was the friend of the Archbishop of Canterbury who was murdered in his cathedral; because of this, Isaac was persecuted by Henry II Plantagenet – the second husband of Eleanor of Aquitaine.
- He was a great Christian, founded the Notre-Dame des Châteliers Abbey on the Ile de Ré. Isaac was also the friend of the Bishop of Poitiers – Gilbert de la Porrée – who also had been his teacher.
- To finish, with other theologians among whom Abélard – the Abélard in Héloïse and Abélard – he was at the origin of the cathedral schools that would later become the first universities in France.

To be content of what we have seen, means in itself, lose what we stop looking for".

Isaac de l'Étoile, 12th century Cistercian Abbot

Isaac de l'Étoile School Complex
62 rue du Porteau - CS 70019 - 86001 Poitiers Cedex

History of a merger...

1854 Opening of the Jesuit College *Saint-Vincent-de-Paul* that would become the *Collège Saint-Joseph* in 1864, and then the High School *Les Feuillants* in 1980.

1689 Opening of *Collège Saint-Stanislas*

1956 Opening of the Vocational High School *Le Porteau*

2005 Merger between the Catholic Teaching Management Organizations of *Saint-Stanislas*, *Les Feuillants* and *Le Porteau*. The three schools are now managed by only one management organization the OGEC Poitiers-Nord

2007 Validation of the name of the new educational institution by Mgr Albert Rouet, Archbishop of Poitiers: *Isaac de l'Etoile*

5 December 2008

Laying the foundation stone of the School Complex *Isaac de l'Etoile*

2 September 2010

First school year as *Isaac de l'Etoile*

20 January 2011

Inauguration of the *Isaac de l'Etoile School Complex*

Welcome to Isaac!

The **School Complex Isaac de l'Etoile** that you are going to discover is an educational facility that proposes various courses – junior high school; senior high school; general, technological and vocational high school; higher national education; professional license; training centre- but it is also a school that pays much attention to the pupil/student as a person in itself. Everyone is considered in human-sized wings. Pupils and students go through a diversity and complementarity of the courses, which is an enriching experience.

Our educational structure is composed of six wings: from 6th to 8th grades, 9th-10th grades, 11th-12th grades, vocational school, higher national education and training centre. This makes it possible for us to follow the personal and academic evolution of our pupils and students at key moments of their courses. Our innovating wing for the 9th and 10th grades provides more flexibility from Junior School to High School, by confirming the youth in their knowledge acquisition and their career choices.

Our educational programme leads us to build together **the School of Confidence**. This school, as a living place full of solidarity and commitment, must make it possible for everyone to give the best of themselves. This confidence makes it possible to flourish, cultivate and build yourself and so to find your place in our society. The mission of this Catholic school that is announcing hope is to accompany the pupils/students and to contribute to their success in their entry in the professional world or in higher education.

Respecting, welcoming, motivating, accompanying, stimulating, listening, empowering, committing yourself are strong actions that we are leading here with all the actors of our programme: teachers, school staff, cultural and sports associations, companies...

I invite you to know our school complex better through the educational and pedagogical axes that are developed in this brochure. I hope you will enjoy reading this document and will join us in our programme...

Philippe Misery,
School Complex Headmaster

Our Educational Programme

Personalizing

A behaviour leading to consider every pupil/student as the person he is and will become: a unique person who needs to be accompanied and guided according to his specific needs towards participation to everyone's wellbeing by helping people.

Promoting the value of hard work

A will that makes it possible for everyone to follow their talents through to the end thanks to learning how to work, to be critical and to express themselves through knowledge acquisition.

Challenge yourself to welcome a reality that is often larger and more complex, and remain free when facing failures and successes, and try to take the best advantage of them for the future.

Daring

A desire to shape man in all his dimensions under the look of God: the soul energy, the spirit unity, true feelings and body expressivity. Encourage boldness.

Promote commitment to serve truth. Give the taste to work for the transformation of our society through smartness, creativity and action in favour of people suffering from injustice.

Welcoming

An attitude that leads us to adapt ourselves to everyone, in a spirit of service and that belongs to the "quality approach" of the school. Privileging the "living together"

A will to build together, and to use our knowledge and talents for everyone's wellbeing in a spirit of benevolence so that everyone could feel considered and valued.

Daring

A desire to create and develop talents by moving beyond old habits and the weight of our history, in a spirit of boldness that accepts to challenge itself without defiance or nostalgia.

Sharing in trust

A behaviour that makes it possible for families and educators to serve as best as possible the development and the fulfilment of young people.

Accompanying

A will to stand by the families in their children's successes and failures. Developing a positive look of faith and hope in everyone's future.

Daring

Assert that every family must be able to choose our school without being held back by financial matters and that acceptable solutions must be found together.

Key figures

- 14 hectares
- 1 900 pupils, students, trainees and apprentices
- 220 teachers and trainers
- 90 staff members
- 50 classrooms equipped with a video projector
- 2 language labs

- 6 innovating pedagogical wings
- 8 300 m² of workshops
- 1 DIC (300 m²)
- 3 catering facilities
- 1 boarding school for 400 pupils
- 2 gymnasiums with outdoor facilities
- 1 sports facility

- 1 dojo for judo and bodybuilding
- 1 auditorium (300 seats)
- 10 min from town centre
- 5 min from Porte de Paris
- n°1 et n°7 bus lines

Practical information

Our fees

A financial contribution is asked to families. It adds to the subsidies and helps given by the State and the local communities.

The **Isaac de l'Etoile School Complex** desires to welcome all the youths who want to live our educational, pedagogical and catholic project. We ask for different contributions regarding the families' incomes and the various financial helps a family can be granted. Scholarship pupils can come to Isaac.

On an indicative basis, depending on the wing chosen, the programme and the income, here is the average monthly fee per month for the 2015-2016 school-year:

- Financial contribution of the families: from €53 per month based on income (the average fee is €85)
- Half-board formula: €85 for 4 meals/week, €105 for 5 meals/week
- Boarding school formula (accommodation + catering): €313 for 6th-8th grades, €362 for the HNE wing, €350 (on an indicative basis) for the other wings.

School books

- From 6th to 9th grades: the books are lent by the school
- For the 10th to 12th grades: parents subscribe to an association that helps them to pay for the books (ARBS: Association Rotarienne des Bibliothèques Scolaires). This association was created in 1965 to alleviate the family burden. It buys the school books and redistributes them.

The families

- give the cheque granted by the Region (to be asked by the Internet)
- pay an annual flat fee
- return the books at the end of the school year

Every family is free to subscribe or not (through the Internet).

The vocational education tax

The **Isaac de l'Etoile School Complex** is entitled to receive the vocational education tax. Many companies have already trusted us and are thus giving us the means to improve and renew our facilities. It also enables to partly ensure the functioning of our apprenticeship programme. If you also wish to bring us your help, you can pay your tax in whole or in part.

Acknowledgments

Philippe Misery and all his team deeply thank all the advertisers whose support has made it possible to issue this brochure.

Documentation and Information Centre Working...Reading...

For the 6th, 7th and 8th grades

- Train the pupils to documentary research and new medias: methodology, assessment of websites, information selection, data processing, syntheses
- Engage students' interest in reading: the library offers a wide selection of youth literature, comics and a large collection of periodicals

For the other wings

- Individual support
- A school and vocational guidance centre

The documentation and information centre
is a workplace opened from 8 am to 7 pm

Sports, arts and culture...

Following its educational policy, *Isaac de l'Etoile* promotes access to arts and culture, and sports.

Encouraging an access to culture for everyone

Junior High School: computer-assisted music in a specifically equipped classroom

Vocational culture: visiting companies, visits of professionals, conferences...

Several options dedicated to arts are offered.

General High School: arts history, theatre, artistic creations, heritage, applied arts section (ST2A), theatre plays and movies in foreign languages, meetings with the actors and stage directors, concerts...

In the different wings: trips abroad or in France to discover other cultures, practice foreign languages, visit museums, understand History.

For the Higher National Education wing: a financial help enables students to attend cultural events (thanks to the Carte Culture).

Accompaniments and activities dedicated to culture, arts and sports: photo workshop, comics, video, radio, music, manual creations, sewing workshop in English, going to movies or theatre, play chess, sign language, rugby, wrestling, Zumba, hip hop, futsal.

Visit of the Vuitton foundation by the ST2A (applied arts section, 11th grade)

Talents' evening

Quartier Libre, a place to innovate

A tool to create ties among everyone, youths and adults. Places where we can live together with our differences, in trust and respect.

The activities: workshops, entertainment, outings, shows, concerts...

A state of mind: encourage to responsibility, commitment and autonomy, especially with the BDE (Bureau des Elèves) – the Students' Bureau – through:

- Managing workshops: arts, games...
- Organizing permanent or one-time events
- Managing the common room and its bar everyday

A team every day to: Welcome, Listen, Encourage, Manage, Coordinate and Forge links.

Encouraging access to sports for everyone

Physical and Sports Education

- Facilities on site: 2 gymnasiums, 1 dojo, 1 climbing wall...
- A pedagogical project in constant evolution to make it possible for everyone to physically build themselves
- Various activities proposed to make it possible for everyone to develop their skills regarding their own resources, to discover sports...

Activities: acrobatic gymnastics, athleticism, badminton, basketball, orientation trail, dance, rugby, handball, futsal, judo, wrestling, body-building, swimming, relaxation, table tennis, climbing, step exercises

Achieving a double project

Isaac de l'Etoile encourages youth talents beyond their academic diplomas – in music, arts, sports...

The institution envisages the youth as an individual. Therefore, our pupils/students are given the opportunity to reach their potential in a "double project".

As far as possible, the diploma course the pupil/student has started has to match an artistic, musical or sports success, to correspond to his potential.

At the beginning of the year, all the actors of his course meet – the young, his family, teachers, the boarding school, his coach, the federation... in order to settle a time schedule that make success possible on both sides.

Adjusted schedule classes enable the youth to follow all the compulsory education but also let him time to train, which is often a tool **to succeed in this double project.**

Jeanne Sapin

When enrolling at *Isaac de l'Etoile*, it is possible for the youth to arrive with his own project, or to build one with our partners. We have signed agreements with:

- The Poitou-Charentes Tennis League
- The Poitiers Basket 86 Training Centre
- The Regional Territorial Centre of the Poitou-Charentes Judo League
- The Poitou-Charentes CREPS
- The Stade Poitevin Triathlon
- The Motorbike French School of Chauvigny
- The Tennis Club of Val Vert

Other partners are:

- The female handball committee of Vienne
- The Club des Trois Cités for female football
- The swimming section of Stade Poitevin

Expressing one's talents, commit oneself, take part in competitions with the UNSS and the University.

The U18 players of the PB86 – basketball – wear the colours of Isaac.

Youth pilgrimage to Lourdes

The Statue at Isaac

Youth Ministry

To respect everyone's beliefs

Listening

Each one of us has a different experience of knowledge, faith, doubt or non-faith. The reason why this youth ministry exists is because we are looking for how to listen to everyone and join them on the way. People at this youth ministry are creating links and giving meaning.

Witnessing one's faith

Headmaster Philippe Misery and the referent priest are missioned by the Archbishop of Poitiers to bring dimension to this. As there are two people on site to work at the youth ministry, propositions can be adapted to every age with the benevolent help of parents and other intervenors.

Walking together

Respecting everyone's convictions, we propose:

- Programmes in religious culture and discovery of main religions
- Christian initiation to sacraments
- Liturgical seasons to celebrate great events in a Christian life, in the Isaac de l'Etoile community life, and in the steps of the youth Christian path: baptism, Holy Communion, profession of faith, confirmation of faith.
- Deepening of the faith for those who want to go further
- Highlights throughout the year, compulsory from 6th to 12th grades (from one afternoon to several days on school time): meet witnesses and discover what Christian commitment is in various fields such as religion, culture and solidarity.
- Commit oneself in solidarity actions: for Christmas for the 6th to 8th grades (this being linked to collective charities), blood donation by young adults, food bank drive, financial support to Opération Orange for the benefit of Sudanese children (with a visit of Sister Sara, successor of Sister Emmanuelle)...
- Participation to the meetings of the youth ministry of the diocese

wing for 6th, 7th and 8th grades

I build my pathway

- Individual support
- Class with 2 foreign languages studied
- Sciences as option
- English +
- Latin
- Computer-assisted music
- Aeronautics Initiation Certificate
- First-aid training

Being welcome and surrounded

I set up my school time

- Rhetoric
- Theatre
- European Club
- Guidance centre

I am supported

- Help and support / strengthening
- Multiple intelligences
- Educational values
- Solidarity
- Discovery of the world of work...

* Lunch break lasting 50min to 1h40 min, regarding the options chosen

■ Courses until 03:15pm at the latest

■ **Then, end of the afternoon dedicated to individual support, options and wing activities**

- The pupil/student makes up his own pathway regarding his own needs, in relation to school, sports, culture, youth ministry, arts, multimedia... Registering online.

Follow-up and close work: relations with families (2 meetings per year, online follow-up of results and absences, direct relation with supervisors, reception hall and secretaries).

Leaving Junior High School and going to High School

A school guidance wing

Our means

- **Support from 2 to 6 hours in an adjusted time schedule:** support and knowledge deepening, opening up to religion, sports and culture.
- **Foreign languages and European awareness:**
German, English, Spanish, Italian, Chinese (3rd FL)
 - European Section in English (start in 10th grade)
 - Bilingual classes in 9th and 10th grades (the pupil studies 2 foreign languages on an equal footing)
 - Latin (9th and 10th grades), Greek (10th grade)
- **Assessment throughout skills**
 - 9th grade: common set of core skills to pass the GSCE
 - 10th grade: exploration of various fields such as economics, arts... And classroom practice
- **School guidance** (career forum, individual support, interviews...)
- **High-level sportspeople and young artists are welcome in Isaac** (adjusted time schedule and a supervising teacher for sportspeople).
- **Preparing the Aeronautics Initiation Certificate**

Our education

In 9th grade, common set of core skills, Latin, support and activities after class.

In 10th grade, exploring education to test your choices

- **One is compulsory in economics:** either social and economic sciences or principles of economy and sound financial management
- **One among the following fields:**
 - Literature and human sciences: literature and society in an economic subject
 - Scientific education: methods and practices of sciences, engineer sciences
 - Languages: Chinese, Latin, Italian
 - Arts education: creation and design, creation and arts, related to heritage
- **Optional education:** Latin, Greek, Theatre, Arts History, Italian, Chinese, European Section in English

Getting prepared for the Baccalauréat (French A-level) and to Higher Education

Programmes: Literature, Economics and Social Sciences,
Sciences (life sciences or engineer sciences as options),
Applied Arts and Technology (since September 2015)

Our education

General education programme

- Common subjects in 11th and 12th grades
- Foreign languages taught: German, English, Spanish, Italian and Chinese. A third foreign language is possible: Latin or Greek
- Compulsory options and specialities linked to the programme (cf website www.isaac-etoile.fr)
- Optional subjects in every programme (theatre, Latin, Greek, Arts history, Italian, Chinese)
- European Section in English, History and Geography being taught in English + trips abroad

The three programmes prepare to higher Education (University, Classes Préparatoires aux Grandes Ecoles (classes to prepare students for the entrance examinations to the top-ranking higher education establishments), IUT, Higher National Diplomas...)

ES programme: Economics and Social Sciences

Programme based upon economics and social sciences, human sciences and politics, and mathematics to get prepared for Human Sciences studies.

L programme: Literature

Programme centred on literature, human sciences and languages (FL1, 2 and/or 3), together with Arts History and theatre.

S programme: Sciences with options (life sciences – SVT, or engineer sciences - SI)

Enables to follow studies in various scientific fields
Education based on experiments and practical work

Programme in the technological education STD2A - Applied Arts and Technology

Possible optional subject: Arts History

Meant for pupils who have an artistic project
(HND in space design, object design...)

Accompaniment: from 2 to 6 hours
in the academic and extra-curricular
programmes

School field

- Options
- Deepening of knowledge
- Support
- Methodology
- Supervised study

Extracurricular activities

- Youth Ministry
- Cultural activities
- Arts activities
- Sports activities

Vocational High School wing

High School specialized in maintenance, transportation and logistics

Our courses

Accompaniment

- ULIS (Unité Localisée pour l'Inclusion Scolaire): make it possible for pupils suffering from handicaps to study with non-handicapped pupils

School guidance

- 9th grade: pre-professionalization

Transportation jobs

- 3-year vocational degree

Logistics jobs

- 3-year vocational degree

Driving and transport jobs

- Youth training in goods driving and transport in one year
- Youth training in goods driving and transport in two years
- Vocational degree in 3 years in goods driving and transport

Industrial maintenance and production jobs

- 3-year vocational degree in maintenance
- 3-year vocational degree in production line management

Car maintenance jobs

- 3-year vocational degree, on passenger cars
- FCIL: additional training (post A-Level: sales advisor for electric and hybrid vehicles)

Lorry maintenance jobs

- 3-year vocational degree

Public works vehicles jobs

- 3-year vocational degree, the third year as apprentice

a passion, a job

Along the road to the world of work

Our means

Recent and well-equipped workshops, like no other in Poitou-Charentes

- 8,342 m² of workshops for all our courses
- 4 tracks dedicated to driving
- Driving simulators for lorries and cars
- Engine test benches and wheel test benches (double rollers)
- Brake tester bench: light and heavy vehicles
- Diagnostic devices for cars: PSA, Renault and multi-brand
- 2 new automobile air conditioning units: Valéo and Facom
- Supervised production line of 9 machines and lift equipment (industrial maintenance)
- 4 driving instruction vehicles for each category of driving license B-C-CE
- Software and equipment to manage stocks
- Warehouse with a high-rack storage area

Partnerships

Exclusive ones

To adapt to positions at Peugeot-Citroen thanks to an additional training course during the car maintenance vocational degree

Multiple ones

All the companies that take part in our courses, all makes

Team Le Porteau

- A Renault Formula race team
- Pupils and students involved in preparation and races

Higher National Education wing

The Higher National Diploma

Choosing a HND means:

- Opting for a 2-year graduating course to become an efficient and acknowledged professional (in some cases, in 1 year only)
- Opening up onto further professional degrees
- Having access to a well-balanced course between theory and practice (from 10 to 14 weeks of training periods, spreading over 2 years)

Being a student at Isaac also means:

- Subscribing and participating to the life of the students' association that will support your projects (4L Trophy... <http://www.4ltrophy.com/en/>)
- Taking part in sports competitions with the University
- Committing yourself in humanitarian affairs through the association ALFAH86
- Taking part in the various wing activities organised on Thursday afternoons (theatre, sports, languages...)

End of school-year party organized by the students' association (AEPiE)

HNDs for positions and further To professional degrees

Our positions

In tourism
(in 1 or 2 years)

In International Trade

In Transportation and Logistics
(in 1 or 2 years)

In Industrial Engineering

- Automotive aftermarket (industrial vehicles)
- Internal Combustion Engine

Further professional degrees in 1 year after the HND

- Management of International Exchanges, in partnership with the University of Poitiers
- Technologies Advanced and Applied to Vehicles, in partnership with the University of Poitiers
- Sandwich course in Tourism, in partnership with the CNAM

Work placements abroad: Isaac de l'Etoile is affiliated to Erasmus+ and Netinvet, 2 European programmes that ease students' mobility.

Internationally

The Isaac de l'Etoile School Complex has decided to open up to the world, especially Europe. Depending on the year and the level, we propose:

Education and training

Foreign languages

- Choose among 5 foreign languages: English, German, Spanish, Italian, Chinese
- Initiation to Japan, Chinese, Russian, Arab during the wing afternoon activities

Preparing certifications

- TOEIC
- Bulat
- Cambridge
- And one in German

Join specific sections

- European sections in high school: English and History-Geography in 11th and 12th grades
- European sections in Spanish in vocational high school
- Extra English from 6th to 9th grades
- From 6th to 10th grades: 2 foreign languages can be studied at the same level

Join our clubs

- European Club in Junior High School
- China Club in HNE

Trip to Prague

Trip to China

Partnerships and programmes

- Welcoming a foreign language assistant in Spanish thanks to the Eurodyssée programme
- Encouraging mobility

The Erasmus+ programme: 2-month work placements abroad make it possible for our students to get confronted to foreign languages, meet and exchange with other European citizens. Some students can be granted a scholarship.

The Netinvet programme eases mobility for European students in *International Trade and Transportation and Logistics*

Welcoming and exchanging pupils/ students thanks to associations: opportunity to prepare the Bac in 4 years, 1 of them being spent abroad in a host family

Training for salaried staff through the Training Centre

Journeys/exchanges

- **Linguistic and cultural journeys** organized during the foreign language courses (Italy, Germany...)
- **Exchanges** with Poland, Germany, Hungary... make it possible to create and keep ties with young people from other countries.

Accommodation

ON SITE

Goals

- The main goal of the boarding school is to look for good working conditions for everyone, in order to achieve success in a living environment that favours the fulfilment of each one.
- Life at the boarding school must be considered in a climate of work, trust, respect and responsibility.
- The boarding school is a privileged space to learn and live together. It is a place that makes it possible to know each other, to meet, to understand the others and build together a shared knowledge and story, thanks to everyone's wealth and difference, youths and adults.

Introduction

- The boarding school welcomes boys and girls from 6th to 12th grades.
- The new building is composed of 95 rooms, 9 being accessible to persons with reduced mobility. Rooms spread over 3 floors, with on each floor, an area dedicated to the 6th-7th and 8th grade pupils.
- The 4-bed rooms are 30m² wide. For each pupil: a working station (Internet access), a cupboard. Separated bathroom and toilets.
- On each floor, a lounge and a meeting place with a tea room

OFF-SITE

La Maison des Futurs Majeurs (MFM)

Goals

- The MFM wishes to develop a family spirit. This requires setting up a frame, a functioning and a daily management that are close to what happens at home.
- Every situation makes it easier for youths and staff to meet.
- To finish, the MFM eases and encourages the youths to take initiatives and responsibilities.

Introduction

- The MFM is an externalized accommodation located à 10 minutes from the School Complex in the town of Chasseneuil-Du- Poitou, next to the Futuroscope, at the B&B Hotel, avenue des Temps Modernes.
- Targets: 11th and 12th grades from the Vocational High School, new pupils from 11th and 12th grades, the students from the HNE wing and the youth from the Training Centre wing.
- The MFM welcomes boys and girls.
- The youths are lodged in rooms of 2 or 4 with a mezzanine.

Accommodation for the Training Centre and HNE wings

- A hotel accommodation for the Training Centre students having attained the age of majority
- Logiparc helps the students to find a low income housing
